

SANITATION MINISTRY

THE REDEEMED CHRISTIAN CHURCH OF GOD

INPUTS FROM SANITATION MINISTRY ON THE DESIGN OF THE NEW AUDITORIUM

1. TOILETS

A. EXEMPTIONAL TOILETS SHOULD BE BUILT FOR THE FOLLOWING CATEGORY OF PEOPLE

SN	GROUP	REMARKS
1.	AGED (Elderly people above 70 years old)	Toilets are to be built on ground floor as against the design of Toilets on 1 st , 2 nd & 3 rd of each Floor on the drawing of New Auditorium.
2.	DISABLE	----- As Above -----
3.	FOREIGN GUEST, VIP, MINISTERS & CHOIR	Toilets are to be built closer to their seating points.
4.	CHILDREN, YOUTHS & ADULTS	This group meets the New Auditorium Toilet Design requirements.

TOILETS

**B. URINARY UNIT SYSTEMS SHOULD BE
BUILT AROUND THE TOILETS WITHIN
AUDITORIUM FOR EASY ACCESSIBILITY**

C. AUDITORIUM PERIMETERS

- AUDITORIUM PERIMETERS SHOULD HAVE INBUILT TOILETS THAT CAN BE EASILY ACCESSIBLE **(see various toilets activities during National programs as activities disturb traffic flow)**

D. OTHER VITAL SUGGESTIONS

- MODERN TOILETS FACILITIES SHOULD BE ABLE TO ACCOMMODATE 100 PEOPLE AT A TIME.
- TOILETS MUST HAVE INBUILT MATERIAL STORES.
- REST ROOMS FOR VOLUNTEERS
- EXPERIENCE COUNTS THAT MORE BATHROOMS ARE NEEDED FOR BRETHREN AT NATIONAL PROGRAMMES BECAUSE PEOPLE STAY LONGER IN THE CAMP.

REST ROOMS FOR VOLUNTEERS.

A photograph showing several people sitting on a long, narrow bamboo mat. In the center, a man wearing a yellow shirt and black shorts is leaning forward, looking at a small object in his hands. To his right, another person is sitting with their back to the camera, wearing a maroon and white patterned cloth. To the left, a person in a yellow shirt and blue jeans is sitting with their back to the camera. The room has a plain, light-colored wall. A blue rectangular box with white text is overlaid on the upper left portion of the image.

Oh Yes!, we can see
JESUS at right hand
of the Father through
the back of LOTTO
toilet.

Insufficient accommodation for Volunteers

In my Father's House there are many passion there, but I will start my passion here in the Auditorium at the camp

Oh LORD! I can see
Paradise in my
dreams on a
wooden bench.

EXPERIENCE COUNTS THAT
MORE BATHROOMS ARE
NEEDED FOR NATIONAL
PROGRAMMES BECAUSE
PEOPLE STAY LONGER IN THE
CAMP. (Bathrooms were not included
in the new auditorium drawing)

WATER SUPPLY /LIGHTS

- Every toilets block should have adequate water supply 24/7 and bore hole sunk closer to it for emergency situation.
- Adequate Water storage should be built to supply toilet facilities at least for five (5) days in case of major repairs of supply station.
- Proper (lights) illumination at both interior and exterior of every toilet locations.
- Mini workshop should be built at strategic places for essential services, e.g plumbers, electricians, so that they may be able to synergize for emergency repairs.
- Pls see below photograph

DRAINAGE / SEWAGE

- Adequate drainage facilities should accommodate waste waters, rain waters.
- Design of drainage facilities should eliminate offensive odour as against backflow of feces, waste waters, etc in the old toilets.
- Design of CENTRAL SEWAGE PLANT should meet crowd requirements, as against challenges in the old toilets.
